LONGEST DAY CHALLENGE MONDAY 11TH DECEMBER

13 participants took part in the 2023 The Longest Day event at Griffith Golf Club. The event raises money for the Cancer Council, and representatives from the Wagga Office of the Cancer Council took the time to attend the Barbeque lunch put on by the Club. Thanks Wayne! The ladies had some cool drinks to keep us hydrated and some great advice about being Sun Safe to prevent Skin cancer and Melanoma.

In total \$9,451 was raised on the day for the cancer council, which is a fantastic achievement by all, but special mention must go to Adam Truscott and his team called Ripsnoorters which raised \$3,430 for such a worthy cause.

Below is a story from the Loving Life team of Ellen McMaster, Kelly Tyson and Elizabeth Barker:

“Loving Life” team consisting of Ellen McMaster, Kelly Tyson and Liz Barker, led the field with an early start at 4.30 am. The Glow in the Dark golf balls provided some entertainment and a very different experience of golf until daybreak.

The early start was to beat the heat with the lead up to the event being quite warm. The heat held off until lunch time then it beat down on us. The use of golf carts made the day very enjoyable. Our team finished at 3.30pm...

I can share my stats...for a mediocre golfer, I managed 454 strokes over the 72 holes. Sadly that was the highest score from our group ... Those strokes included quite a bit of zigging and zagging at times. Sticking to the shade line was not a bad strategy on this golfing marathon! Collectively we played 1307 strokes.

Griffith Golf Club hosted the event and participants would like to thank Wayne and the Board of Directors for their support of an event that raises funds for a very worthy cause.

The Loving life team has raised \$1873. That is \$1.43 per hole. Donations are still being accepted and can be made via the following link <https://www.longestday.org.au/st/5784/27871>

We pause here to remember loved ones who have battled with Cancer, and to those unable to enjoy golf due to current health challenges. Research funded by the Cancer Council will help future generations to live a better life with less cancer. Research has already made a huge difference to the way we manage various cancers.

Thank you to all who donated to the Cancer Council and supported participants in this years' event.
